

## FreedomPay Commerce Platform Integration for NetSuite

### Payments Pre-integrated with NetSuite

FreedomPay, the global leader in secure commerce technology, provides merchants with a secure payment gateway that seamlessly connects to all the major credit card processors enabling fast and easy credit card transactions for Visa, MasterCard, American Express and Discover. Fully integrated with the NetSuite card storage capability, credit card data is tokenized and secure.

The FreedomPay Commerce Platform simplifies credit card transaction processing for NetSuite ERP, including SuiteCommerce Advanced users, by providing a secure payment connector that is seamlessly integrated with all the major North American payment processors. As part of the SuitePayments program, the FreedomPay platform enables for card-not present and card present transaction processing from Visa, MasterCard, American Express and Discover while providing PCI-validated point-to-point encryption. FreedomPay's Commerce Platform is Level 1 certified by the PCI Security Standards Council ensuring cardholder data is fully protected and secure.

### Transaction Workflow Between Webstore, NPP, FPP & FreedomPay

## Key Features and Benefits

- PCI-validated P2PE solution that reduces PCI scope
- Supports all major cardholder entry methods
  - o Manual Entry
  - o Swipe
  - o Contactless
  - o EMV
- Fully integrated solution that utilizes the same network and does not require a separate network to be implemented into your stores
- Provides unique offline functionality with threshold limits that are stored at your location in scenarios where your store loses connectivity or issues with a downstream processor and later replayed in an online state
- Offers hot-swappable devices that are “plug-n-play” that do not require any additional hardware in your environment, can be moved store-to-store, can be easily replaced if broken
- Captures all Level 3 payment information ensuring the lowest credit card transaction fees
- Support for Dynamic Currency Conversion
- Access to FreedomPay’s robust Enterprise Reporting Portal and Device Management Portal
- Support for gift cards
- Support for card present and card not-present transactions
- Support for all major processors in the US
  - o First Data
