

NEXT LEVEL TOUCHLESS COMMERCE

FreedomPay, a world leading consumer-centric platform, is taking payments to a safer Next Level by introducing [Touchless Commerce](#).

Leveraging the power of our partner network, FreedomPay's Touchless Commerce program gives both the merchant and consumer the peace of mind while making checkout swift, simple and secure.

In order to qualify, we validate that our solution partners not only offer a completely touchless consumer payment capability, but also properly integrates into our robust platform offering ensuring that the merchant receives the industry's best possible solution around interchange rates, chargeback protection and online fraud coverage.

A TOUCHLESS COMMERCE SOLUTION CAN SOLVE FOR A CHECKOUT IN MULTIPLE WAYS.

Touchless Commerce is super fast, safe and easy.

No more touching the keypad, no more signatures and no more checks. We want to give the merchant the safest way possible for the consumer to pay whether in a restaurant, drive-through, airport, convenience store, retail outlet or hotel.

- No waiting times
- Easy to use technology
- Setup and go-live in hours

Touchless payments are also more secure because unlike other options – the consumer always has full control over their payment information. Today, consumers have the payment power in their hands to order and go!

Contactless Payment Method
